Dear PMS Vendor,

Elective surgery spinal procedures have been redefined, resulting in all current spinal (SPN) codes being retired and replaced from 1 May 2023.

ERS17 and ESR18 have had slight adjustments to their descriptions. An additional tab has been added, "Elective Surg-Full Descriptions", to provide the full descriptions of the procedures, as there has been additional clarification of what is included or not included in some procedures.

The link to the PMS Code List is below. The password will be sent in a separate email.
